

Batería Recargable Li-Ion

MODELO PT-T03-00011

## Batería OEM Para Radios Tait

**Compatible con Radios marca  
Tait modelo TP9500**

### CARACTERISTICAS

- Voltaje: 7.4 Volts
- Celdas: Li-Ion
- Libre de Efecto Memoria
- Capacidad Máxima: 3300 mAh
- Energía: 19.24 Wh
- Excelente Construcción
- IEC 60529, IP54
- OEM, Original Equipment Manufacturer

| ESPECIFICACIONES                      | VALOR                                                     |
|---------------------------------------|-----------------------------------------------------------|
| Voltaje Nominal                       | 7.4 VDC                                                   |
| Capacidad Máxima                      | 3300 mAh                                                  |
| Capacidad Mínima                      | 2400 mAh                                                  |
| Energía Nominal                       | 19.24 Wh                                                  |
| Química                               | Recargable, Ion Litio (Li-Ion) Sin Efecto Memoria         |
| Temperatura de Operación              | -20°C a +60°C                                             |
| Húmedad                               | 95%, Sin Condensación                                     |
| Nivel de Ingreso                      | IP54, de acuerdo a IEC 60529                              |
| Durabilidad                           | ≥ 80% Capacidad, Después de 12 meses de uso               |
| Compatibilidad                        | Radio Portátil Tait Modelo TP9500                         |
| Shock                                 | MIL-STD-810G                                              |
| Construcción                          | Carcasa Polietileno BD, Resistente a Condiciones Adversas |
| Dimensiones                           | 61 mm x 118 mm x 21 mm                                    |
| Peso                                  | 188 gramos                                                |
| OEM (Original Equipment Manufacturer) | T03-00011-EAAA                                            |

Li-Ion Rechargeable Battery

MODEL PT-T03-00011

## OEM Battery for Tait Radios

### Compatible with Tait TP9500 series radios

#### FEATURES

- Voltage: 7.4 Volts
- Cells: Li-Ion
- No memory effect
- Maximum capacity: 3300 mAh
- Energy: 19.24 Wh
- Excellent construction
- IEC 60529, IP54
- OEM (Original Equipment Manufacturer)

| SPECIFICATIONS                        | VALUE                                                  |
|---------------------------------------|--------------------------------------------------------|
| Nominal Voltage                       | 7.4 VDC                                                |
| Maximum Capacity                      | 3300 mAh                                               |
| Minimum Capacity                      | 2400 mAh                                               |
| Nominal Energy                        | 19.24 Wh                                               |
| Chemistry                             | Rechargeable, Lithium-ion (Li-Ion) No Memory Effect    |
| Operational Temperature               | -20°C to +60°C                                         |
| Humidity                              | 95%, Non Condensing                                    |
| Ingress Protection Level              | IP54, in accordance with IEC 60529                     |
| Durability                            | ≥ 80% capacity after 12 months of use                  |
| Compatibility                         | Tait Portable Radio Model TP9500                       |
| Shock                                 | MIL-STD-810G                                           |
| Construction                          | BD Polyethylene Shell, Resistant to Adverse Conditions |
| Dimensions                            | 61 mm x 118 mm x 21 mm                                 |
| Weight                                | 188 gr                                                 |
| OEM (Original Equipment Manufacturer) | T03-00011-EAAA                                         |
